RE: **REQUEST FOR CONFIDENTIAL TREATMENT**
WC Docket No. 14-58 - ETC Annual Reports and Certifications

Request that Information Submitted to the Commission be Withheld from Public Inspection Pursuant to 47 C.F.R. §0.459 and 5 U.S.C. §552(b)(4): Five-Year Service Quality Improvement Plan Progress Report and Service Outage Reporting included in FCC Form 481

Confidential Information – Subject to Protective Order Before the Federal Communications Commission

Dear Ms. Dortch:

In accordance with the annual reporting requirements of 47 C.F.R. §§54.313 and 54.422, Rural Telephone Company-Nevada (the Company), Study Area Code 552233 is submitting a completed FCC Form 481 to the Commission via its Electronic Comment Filing System (ECFS) in WC Docket No. 14-58. *The version of the Company's FCC Form 481 submitted via ECFS is a redacted version of the filing that contains no confidential information.*

The Company, by its authorized representative, hereby requests confidential treatment of three attachments to its FCC Form 481: (1) the five-year service quality improvement plan progress report, (2) the financial annual report, and (3) service outage reporting, all of which were redacted in the ECFS submission. The request for confidential treatment of the five-year plan progress report and the service outage reporting is being made

pursuant to Section 0.459 of the Commission's rules and Exemption 4 of the Freedom of Information Act (FOIA). The request for confidential treatment of the financial annual report is being made pursuant to the FCC's March 22, 2016 *Protective Order* in WC Docket Nos. 10-90 and 14-58. These attachments contain competitively sensitive data that Rural Telephone Company-Nevada maintains as confidential and does not normally make available to the public. Release of this information would have a substantial negative impact on the Company.

Five-Year Service Quality Improvement Plan Progress Report and Service Outage Reporting

Pursuant to Section 0.459 of the Commission's rules and Exemption 4 of FOIA, Rural Telephone Company-Nevada requests that the text and data extracted from its five-year service quality improvement plan progress report and the service outage reporting be withheld from public inspection because it contains competitively sensitive commercial and financial information that the Company maintains as confidential. Public availability of this information would have a substantial negative impact on the Company.

In accordance with Section 0.459 of the Commission's rules, the following information is provided in support of this request:

(1) Identification of the specific information for which confidential treatment is sought:

Attachment to Line 112 of FCC Form 481 – Five-Year Service Quality Improvement Plan Progress Report. Specifically, confidential treatment is sought for all information in the five-year plan progress report related to the Company's access line counts, existing broadband capabilities, and current and planned financial investments in its network that will improve service quality, service coverage, and/or service capacity for its customers.

Attachment to Line 200 of FCC Form 481 – Service Outage Reporting. Confidential treatment is sought for all information in the service outage report specifically related to the Company's access line counts.

(2) Identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission:

The information was submitted in WC Docket No. 14-58 as an attachment to FCC Form 481- the Carrier Annual Reporting Data Collection Form. Section 100 of FCC Form 481 requires incumbent local exchange carriers receiving high cost support to attach a progress report on its five-year service quality improvement plan, pursuant to 47 C.F.R. §54.313(a)(1). Section 200 requires eligible telecommunications carriers

to report outage information of at least 30 minutes in duration and impacts at least ten percent of the end users served in the service area or 911 special facility pursuant to 47 C.F.R. §54.313(a)(2).

- (3) Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged:

The five-year service quality improvement plan progress report contains granular information on the Company's access line counts and/or existing broadband capabilities as well as recent and planned capital investments in its network to improve service quality, service coverage, and/or service capacity. It also contains a map of the Company's service area detailing progress toward meeting broadband deployment targets at the wire center level. The service outage information contains access line information which could cause harm to the competitive position of the Company. The required information in both instances contains closely guarded, privileged information that the Company does not make publicly available.

- (4) Explanation of the degree to which the information concerns a service that is subject to competition:

Broadband service and voice service are both subject to increasing competition in the areas served by rural, rate-of-return incumbent local exchange carriers (RLECs). Virtually all RLECs face competition from one or more wireless providers that have voice and data plans. Most RLECs also face competition from at least one other wireline voice and broadband provider such as a larger cable company, who will typically seek to "cherry pick" the lower cost portions of the study area. In addition, all RLECs face competition throughout their territories from satellite providers.

- (5) Explanation of how disclosure of the information could result in substantial competitive harm:

Disclosure of the information contained in the five-year plan progress report and the outage reporting would provide competitors with detailed, granular information regarding the Company's access line count, its existing broadband capabilities, and its recent and planned network investments that improve service quality, coverage, and/or capacity for subscribers. This would give competitors invaluable confidential information with which to develop their own strategies for investing in the service area, thereby bringing substantial competitive harm to the Company.

- (6) Identification of any measures taken by the submitting party to prevent unauthorized disclosure:

The Company has continually treated the extracted information in its five-year plan progress report and the access line counts provided in the service outage reporting as confidential and carefully controls the information to protect it from competitors. Access to the information is limited to employees that require it and to non-employees with confidentiality obligations such as lenders, consultants, auditors, and attorneys. In addition, when such information is required to be submitted to a state regulatory authority it has been filed as confidential information, not available to the public.

- (7) Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties:

The redacted information in the five-year plan progress report and service outage reporting is not available to the public, and third party access is limited as described in (6) above.

- (8) Justification of the period during which the submitting party asserts that material should not be available for public disclosure:

The Company requests that the extracted information be withheld from public inspection indefinitely. The information in the five-year plan progress report details the Company's most recent network upgrades in relation to its previously submitted service quality improvement plan. It may also contain upcoming planned network improvements during the period ending 2019. This information would provide a very useful baseline for competitors for several years beyond that period. The Company also requests that the service outage information be withheld from public inspection indefinitely because of the ongoing competitive harm it may cause.

- (9) Any other information that the party seeking confidential information treatment believes may be useful in assessing whether its request for confidentiality should be granted:

Exemption 4 of FOIA shields from public disclosure commercial or financial information obtained from a person that is privileged or confidential. Based on the responses provided above, the information in question satisfies this test.

Financial Annual Report

Section 3005 of FCC Form 481 requires a privately-held rate-of-return carrier receiving high cost support to attach a full and complete annual report of the company's financial condition and operations pursuant to 47 C.F.R. §54.313(f)(2). Rural Telephone Company-Nevada seeks confidential treatment of its financial annual report pursuant to the March 22, 2016 *Protective Order* in WC Docket Nos. 10-90 and 14-58.¹ The *Protective Order* specifically covers information filed pursuant to 47 C.F.R. §54.313(f)(2).

Rural Telephone Company-Nevada is providing to the Office of the Secretary, under seal, this cover letter and the Form 481 filing which includes the confidential information that is being requested to be withheld from public inspection.

Each page of the five-year service quality improvement plan progress report confidential submission bears the legend, "CONFIDENTIAL – NOT FOR PUBLIC DISCLOSURE."

Each page of the Service Outage Reporting (Voice) confidential submission bears the legend, "CONFIDENTIAL – NOT FOR PUBLIC DISCLOSURE."

Each page of the financial annual report confidential submission bears the legend, "CONFIDENTIAL INFORMATION – SUBJECT TO PROTECTIVE ORDER BEFORE THE FEDERAL COMMUNICATIONS COMMISSION."

The confidential information has also been submitted to the Universal Service Administrative Company through its E-File system as attachments to the FCC Form 481.

In the filing submitted via ECFS, all pages containing confidential information bear the legend "REDACTED – FOR PUBLIC INSPECTION."

This cover letter includes no confidential information and the text is the same in both the non-redacted and redacted versions except for the confidentiality markings.

4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission's public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions – FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.

Name of Attached Document Listing Required Information

Broadband Deployment Locations – FCC 14-98 (paragraph 80)

4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481.

Name of Attached Document Listing Required Information

4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the relevant geographic area.

Voice Network

Pursuant to 47 C.F.R. § 54.313(a)(5) and or 47 C.F.R. § 54.422(b)(3) Rural Telephone Company - Nevada ("Rural") is in compliance with appropriate FCC Service Quality Standards and Consumer Protection Rules. Rural provides CPNI training to all of its new employees and in addition trains all of its existing employees on an annual basis. Rural also conducts subscriber outreach regarding CPNI by placing CPNI explanation onto its website at www.rtc.net which informs subscribers about CPNI rules and other applicable customer rights and obligations. In addition Rural trains staff on Red Flag issues on an annual basis. All company employees are required to sign and acknowledge that they have completed CPNI and Red Flag training and understand obligations to adherence of applicable rules.

Rural also outlines its rates, terms, and conditions under which ILEC offers service in its Local Exchange Tariff. The tariff explains customer rights and obligations, customer service, dispute resolution, deposits, billing and payment options, disconnection of service as well as cancellation of service options. Rural keeps its tariffs available for public inspection at its business offices.

Functionality in Emergency Situations:

Voice Network

Pursuant to 47 C.F.R. § 54.313(a)(6) and 47 C.F.R § 54.22(b)(4) as set forth in 47 C.F.R. § 54.202(a)(2) Rural Telephone Company – Nevada (“Rural”) meets the requirements to remain functional in emergency situations and has the following capabilities: Back-up power is provided to Rural central offices by use of a generator and batteries that provide it with 8 to 12 hours of emergency power. In addition, Rural’s field electronics have 8 to 12 hours of back-up power by use of generators and batteries. Rural also has SONET technology deployed in its core fiber optic network that is self-healing and will automatically reroute traffic should a fiber cut occur. Rural has also sufficient spare cards for its fiber optic network to provide almost instantaneous replacement should there ever be a card failure in the core network. Rural also has proper staff in place to repair any fiber cuts in a timely manner. Rural has connectivity with neighboring telephone exchanges as well as the LATA tandem to provide diverse options to reroute traffic should an emergency arise. Rural has developed and trained its staff on network preparedness plans in case of emergency situations. Rural is prepared and capable of managing traffic spikes resulting from emergency situations and has sufficient switching capabilities to handle such situations.

Voice Services Comparability Report

Pursuant to 47 C.F.R. § 54.313 (a) (10) Rural Telephone Company - Nevada ("Rural") is in compliance with the requirement that voice services is no more than two standard deviations above the national average urban rate for voice service of \$41.07 as specified in Public Notice DA 16-362 issued on April 5, 2015. Rural's current total local end-user rate¹ of \$22.00 (which includes a local fee of \$14.00, mandated state fees of \$0.00 and mandatory extended area service charges of \$0.00) is not above the standard deviation as specified in the USF/ICC Transformation Order.²

¹ Local End User Rate as defined in USF/ICC Transformation Order 26 FCC Rcd at 17751, Para. 238

² USF/ICC Transformation Order, 26 FCC Rcd at 17694, Para. 84 (footnote included) "The standard deviation is a measure of dispersion. The sample standard deviation is the square root of the sample variance. The sample variance is calculated as the sum of the squared deviations of the individual observations in the sample of data from the sample average divided by the total number of observations in the sample minus one. In a normal distribution, about 68 percent of the observations lie within one standard deviation above and below the average and about 95 percent of the observations lie within two standard deviations above and below the average."
